Subject: [External] Proposal from Dominion Energy - Please reject!

To the Public Service Commission,

I just heard about Dominion's recent proposal which would result in increased costs to users of solar energy in SC. It is Docket #2020-229-E. Please reject this! We need to be focusing on making renewable energy more affordable, not less. We need to be protecting consumer choice and energy market competition. I urge you to reject this anti-renewable proposal from Dominion Energy.

Sincerely,
Rebecca Anderson

Moore, SC 29369
